

# Semináře Katedry botaniky

## Zimní semestr 2021-22

We are pleased to announce that currently the seminars will be in physical space again, at the Krajínova lecture hall at 3. p.m. as usual.

The first seminar will be streamed at the Zoom link is <https://cuni-cz.zoom.us/j/99444721370>; streaming of the remaining seminars will be decided later.

5.10.	<b>Dina in't Zandt</b>	Institute of Botany	Plant-soil-microbiota interactions as a driver of plant community processes (plus introductory organizational info by the department chair)
12.10.	<b>Erik Meijaard</b> ( <i>Velká zoologická posluchárna</i> )	School of Anthropology and Conservation, University of Kent	When to rescue orangutans, and other conservation dilemmas
19.10.	<b>František Baluška</b>	University of Bonn, Institute for Cellular and Molecular Botany	Plant Cognition and Behavior
26.10.	<i>flash presentations</i>		Jindřich Chrtek, Alena Kubátová, Tomáš Urfus, Jana Kulichová, Zdeněk Janovský, Patrik Mráz
2.11.	<b>Yvonne Němcová</b>	Department of Botany, Charles University	Being fortified: silica-scales & aragonite crystals
9.11.	<b>Sergey Rosbakh</b>	Ecology and Conservation Biology, Faculty of Biology and Pre-Clinical Medicine, University of Regensburg	Regeneration niche and assembly of plant communities
16.11.	<b>PhD. students seminar</b>		<b>Věra Hanzelková</b> : Factors determining plant-soil feedbacks in plant invasions, <b>Paolo Bartolić</b> : Evolutionary history and speciation barriers triggered by whole genome duplication in <i>Cardamine amara</i> (Brassicaceae), <b>Paula Alejandra Buil Maldonado</b> : Symbiotic functioning of arbuscular mycorrhizal fungi in arable soils
23.11.	<b>Patrick Meirmans</b>	Institute for Biodiversity and Ecosystem Dynamics, University of Amsterdam	Niche, polyploidy & sex in dandelions and many other species
30.11.	<i>UNCE seminar (together with Depts. of Ecology, Zoology and UŽP; Krajínova posluchárna)</i>		<b>Lenka Procházková</b> (Dept. of Ecology): Life in melting mountain snow and glaciers: ecology and phylogeny of microalgae; <b>Věra Opatová</b> (Dept. of Zoology): Evolution and diversification mechanisms in mygalomorph spiders; <b>Jan Hošek</b> (Centre for Theoretical Studies): Late Pleistocene geo-environmental dynamics in Central Europe; <i>4th presentation to be added</i>
7.12.	<i>PhD projects opening seminar</i>		
14.12.	<b>Luciana Salomon</b>	Department of Botany, Charles University	Plant diversification in the Andes
4.1.	<b>Mauricio Diazgranados</b>	Royal Botanic Gardens, Kew	TBA
