### Application form for World Student Environmental Summit 2013 at Leuphana University

Dear Ms. Dostálková,

We are delighted to hear that your university is willing to send 2 students as delegates of your university to the 6th World Student Environmental Summit (WSES), held from 16 to 20 September 2013 at Leuphana University Lüneburg in Germany. This year's theme will be

#### **'Universities acting for Sustainability!'**

Universities are ideal breeding grounds for creating, sharing and cultivating inspiring sustainability projects and teachings that challenge students to make their contribution to a sustainable future. With the WSES 2013 we bring international students of various disciplines together who are eager to make a change within universities and interact with society for sustainability. Thus we aim to help bridging the gap between scientific research and societal change, thereby promoting transdisciplinary research.

The application process works as follows:

- Please make the attached application form and the information provided in this letter available to all your students. The opportunity to apply should be open to all students of any level and discipline.
- Until **1 March 2013**, please select 4 out of all applicants and send us their filled-in application forms and CV, both written in English.
- When selecting delegates, please pay special attention to the following criteria: 1. A good level of English-proficiency. 2. Students should show their great interest in sustainability and their active involvement in sustainability activities.
- Of the 4 filled-in application forms and CVs you send back to us (please both as pdf-files) we will select 2 delegates that will attend this year's WSES in Lüneburg.

We will cover the students' conference expenses, but we can unfortunately not pay for the travel expenses. Therefore we kindly ask you to cover your delegates' travel expenses to Lüneburg and back. We thank you so much for your support and are always ready to answer your questions should you have some.

Kind regards,

*Klara Winkler and Helen Steiniger*  
*For the application procedure team of the WSES 2013*
