URBAN AND REGIONAL LABORATORY (URRLAB)

OFFER

We offer our expertise within a diverse range of broadly defined issues related to urban and regional development:

- Urban and regional planning.
- Population projections.
- Territorial impact assessments.
- Policy scenarios.
- Monitoring of social risks.
- Situation analyses.
- Thematic cartography.

KNOW-HOW & TECHNOLOGIES

URBAN STUDIES, URBAN AND SETTLEMENT GEOGRAPHY, REGIONAL DEVELOPMENT

Our mission is to apply geographic knowledge to explore environment around us and improve quality of life.

- Development of settlement system, urbanisation and suburbanisation.
- Socio-spatial differentiation, micro-geography.
- Unemployment, criminality, social deprivation.
- Migration and spatial mobility.
- Thematic cartography.
- Housing and quality of life.

**We are looking for cooperation
with academic partners as well as
public and private organizations
in the fields of urban studies
and regional development.**
