UNIVERSITÉ
DE GENÈVE

Are you a science student or a junior researcher interested in an interdisciplinary course at the nexus between chemistry, biology, and physics? Would you like to live an international experience from your home while learning from world-class experts abroad? Here is your chance!

This autumn semester, the **University of Geneva** is offering to a limited number of students, the online course **Chemical Biology** as part of its Virtual Exchange/4EU+ Shared Course programme. As a student registered in one of our partner universities, you have the privilege to access to this interdisciplinary course and validate 6 ECTS credits!

The course offers:

- An introduction which unites the various disciplines that are incorporated into chemical biology;
- An overview of modern chemical biology concepts;
- Instructors from UNIGE, EPFL and UHZ who are world-renowned experts;
- Laboratory videos presenting a diverse array of modern chemical biology techniques;
- Numerous quizzes and graded problems;
- Possibility to draft a research proposal and design your own experiments.

Do not miss this opportunity: the application deadline is the **1st of September 2023!**

Visit the UNIGE's [Virtual Exchange website](#) to learn more about the course and the application process.
