

Integrating Health Into Environmental Decisions: Approaching Complexity
Zohlednění vlivu na zdraví při rozhodování o životním prostředí - metody pro
komplexní přístup

that would be held on

Thursday, 11. February 2010 13.30 - 17.00

in the Krajina Auditorium

Institute for Environmental Studies, Faculty of Science Charles University, Benatska 2, Praha 2.

The seminar will be held in English.

The aim of the seminar is to discuss how to improve the inclusion of human health into the environmental decision making. The basis for the seminar are the results of the FP6 project HENVINET, www.henvinet.eu. The seminar will be held primarily in English, with interventions in Czech.
