- O kolik, a jak rychle, stoupne hladina světového oceánu?
- Jak vypadaly ledovce v Alpách před sto lety, a budou tam ještě nějaké za sto let?
- Chcete se dozvědět více o současném stavu ledovců a ledovcových štítů a metodách jejich výzkumu?

*Přihlaste se na předmět:*

## Ice sheets and glaciers in the warming world

(3 ECTS, summer term, lecture Mo 14:50, course code MZ330P128)

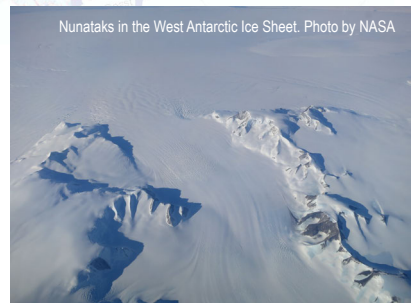

*Register, if you want to know:*

- How much, and how fast, will the global sea level rise?
- How did glaciers in the Alps look like a hundred years ago, and will there be any in another hundred years?
- What is the current state of glaciers and ice sheets, and what are the methods to study them?
