## **CALL FOR PAPERS AND SESSIONS**

We are pleased to invite you to attend the 6<sup>th</sup> International Urban Geographies of Post-Communist States Conference: **25 years of urban change** (i.e., the CATference) to be held **in Prague on 23<sup>th</sup>-26<sup>th</sup> September 2015**.

Cities After Transition (CAT) is the largest network of scholars primarily interested in urban issues regarding the 'post-socialist' countries of Central and Eastern Europe and the Former Soviet Union. The majority of CAT network are academic geographers – ranging from early career doctoral students to senior specialists – although there are members from other disciplines as well. Our main goal is to facilitate and promote international scholarly contacts and cooperation within our field.

The 6<sup>th</sup> CATference follows five successful bi-annual workshops in Lund (2005), Stockholm-Tallinn (2007), Tartu (2009), Bucharest (2011) and Tbilisi (2013). Selected papers presented in the CATferences were published in leading international journals in the field (Geografiska Annaler, Cities, Urban Studies). As usual, the event will showcase high-quality scholarship on the post-communist/post-socialist city, and there will be a dense social programme that includes a field trip. The participation of young researchers and PhD students from within the CEE/FSU region and beyond is strongly encouraged. CATferences offer a relatively small-scale environment, creating excellent opportunities to get acquainted with colleagues that share similar research interests.

## **CATFERENCE THEME: 25 YEARS OF URBAN CHANGE**

We encourage a wide range of contributions on the development of post-socialist cities ('cities after transition'). At the same time, and considering that Prague's Albertov neighbourhood – the venue of the CATference – was the initial place for the 1989 Velvet Revolution in Czechoslovakia, we intend to grasp the opportunity to look back at the development of the disciplines of urban geography and urban studies more generally during the last 25 years. Therefore, we plan to discuss the variety of theoretical concepts, methodologies, empirical findings and research techniques used in research on different post-socialist cities during this period.

## **FORMS OF PARTICIPATION**

You may either propose full paper sessions, or submit individual paper abstracts to be assembled into thematic sessions by the organizing team. You may also participate without giving a presentation. Each presentation will be given 20-25 minutes, including time for questions, answers and discussion.

## **ORGANIZING A SESSION**

Session organizers are responsible for assembling contributions, and returning a completed session proposal form to the organisers. The proposal should contain the title, abstract, author name(s), affiliation(s) and email address(es) of all speakers. All sessions will be reviewed by the CATference Organisation Committee before being accepted for the conference. We will confirm acceptance of sessions by e-mail before the end of March 2015.

To submit a session proposal, please send your suggestions directly to the organizers by e-mail:
