

Seminars

Summer term 2021/22

Institute of Petrology and Structural Geology, Faculty of Science, Charles University

✉ petrol@natur.cuni.cz 🌐 <https://www.natur.cuni.cz/geologie/petrologie>

 **Wednesday March 9, 2022**

Dr. Pavel Pitra
Université de Rennes 1, France

 3 p.m. on Albertov 6, 2nd floor-left, petrology lecture room, no. 203

Complex zircon petrochronology in migmatite-hosted eclogites (Montagne Noire, France)

 **Wednesday March 23, 2022**

Prof. Holger Stünitz
UiT The Arctic University of Norway

 3 p.m. on Albertov 6, 2nd floor-left, petrology lecture room, no. 203

What we know about quartz deformation today - a state-of-the-art-summary

 **Wednesday April 6, 2022**

Dr. Stephen Collet
Czech Geological Survey, Prague

 3 p.m. on Albertov 6, 2nd floor-left, petrology lecture room, no. 203

Resolving the pre-orogenic architecture of the Bohemian Massif: Examples of zircon geochronological and geochemical fingerprinting

 **Wednesday April 27, 2022**

Dr. Graham Hill
Geophysical Institute, Czech Academy of Sciences

 3 p.m. on Albertov 6, 2nd floor-left, petrology lecture room, no. 203

Extreme Geophysics - Magnetotelluric studies of the Antarctic Interior: Mount Erebus and the Central Transantarctic Mountains
