

Seminars

Summer term 2023/24

Institute of Petrology and Structural Geology, Faculty of Science, Charles University

✉ petrol@natur.cuni.cz 🔗 <https://www.natur.cuni.cz/geologie/petrologie>

Wednesday February 28, 2024

Doc. Rastislav Vojtko

Univerzita Komenského v Bratislavě

 3 p.m. on Albertov 6, 2nd floor-left, Petrology lecture room, no. 203

Low-temperature thermochronological techniques and applications in the study of the Western Carpathian basement rocks

Wednesday March 6, 2023

Prof. Lucie Tajčmanová

Universität Heidelberg

 3 p.m. on Albertov 6, 2nd floor-left, Petrology lecture room, no. 203

Quantification of microscale processes in metamorphic rocks

Wednesday March 20, 2023

Dr. Christian Sippel

Geofyzikální ústav AVČR

 3 p.m. on Albertov 6, 2nd floor-left, Petrology lecture room, no. 203

Structure of the Northern Chile subduction zone from 15 years of seismic data

Thursday April 11, 2024

Prof. Robert Moucha

Syracuse University, USA

 This lecture will exceptionally take place from 4:00 p.m

Investigating the role of inherited structures in continental rifting using coupled geodynamic and landscape evolution models

 **Wednesday May 22, 2024**

Prof. Esther Schmädicke
Universität Erlangen-Nürnberg

 3 p.m. on Albertov 6, 2nd floor-left, Petrology lecture room, no. 203

Garnet - clue to H₂O transport in subduction zones and origin of mantle rocks
